Amirmohammad Lotfipour

Front-End Developer (Mid-Level) · Next.js, React, TypeScript · Founder of nimbyte
amirmmd.lotfipour@gmail.com · 0939-608-7851 · Telegram @isAmirMmd · github.com/IsAmirMmd · linkedin.com/in/isamirmmd · nimbyte.ir · Mashhad, Iran

PROFILE

Front-End developer specializing in Next.js, React and TypeScript. I build websites, dashboards, Telegram Mini Apps and Telegram bots, and have worked remotely with US teams since 2023 on data-heavy products, system design and AI agents. Since spring 2026 I develop through Claude Code agents, with custom skills and workflows that keep their output in line with each project's conventions. Coding since seventh grade.

EXPERIENCE

Front-End Developer, Mid-Level, Private Company
Remote, USA · Oct 2024 – Present

- Turn large datasets into charts and analytical reports with D3.js and Highcharts, processed in the browser while keeping pages fast.
- Made the codebase easier to maintain with advanced React hooks and patterns.
- Since spring 2026, moved the team's development to Claude Code: features, refactors and bug fixes all done through agents, with custom skills and workflows that keep their output to the project's conventions.

Founder & Developer, nimbyte (nimbyte.ir)
Studio for websites, dashboards, Telegram Mini Apps and bots · Present

- Built nimbyte.ir with Next.js, Tailwind CSS and Prisma on PostgreSQL: a price calculator that orders through Telegram, a shop with online payment, a blog and portfolio from a rich-text admin panel, and SEO.
- Design and ship Telegram bots on Telegram Serverless with React Mini Apps, admin panels, widgets, offline tests and GitHub Actions deploys.

Front-End Developer, Junior, 123 Health App
Remote, USA · Oct 2023 – Sep 2024

- Built interactive healthcare tools with Next.js and responsive UI components with Ant Design.
- Drew component and sequence diagrams of how the system's parts interact.
- Implemented a multi-tier architecture separating presentation, business logic and data.

Front-End Developer, Junior, Melting Bears
Tehran, Iran · Freelance

- Built a gamified Web3 web app with Next.js, TypeScript and Tailwind CSS, with wallet sign-in. Demo: melting-bear.netlify.app

WordPress Instructor, Babol University of Medical Sciences
Babol, Iran · Winter 2023

- Taught WordPress; learned to explain technical ideas simply and to present to a group.

SELECTED WORK (NIMBYTE.IR/PORTFOLIO)

- AdsProvider: Telegram bot for ordering Telegram Ads, with a toman wallet (card-to-card, TON, USDT), the Telegram Ads API, chart reports, chat widgets and a React Mini App.
- Soundgir: SoundCloud downloader bot with Spotify and YouTube link matching, tags written into the file, a Playlist Mini App with a streaming player and a Telegram widget.
- Nakoja: online shop demo, from product page to seller panel.
- LikeTune and Hesabdar: likes and stats for music channels; an inline calculator and currency converter.

EDUCATION

B.Sc. Computer Engineering, Babol Noshirvani University of Technology · 2022 – Present · Teaching Assistant, Web Programming
